Street Date: **May 17th 2005**

Format: **CD**
SRLP: **\$12.99**
Catalog: **APR-008**

Welcome to **Fuga**, the debut album from sensational turntablist **Ricci Rucker**. **Fuga** is first and foremost a jazz album, "which features the turntable as the focus instrument, using 20 musicians to lay down the music." It helps to think of **Fuga** as a 50-minute long song, one that takes the listener on an astonishing musical journey through the head of **Ricci Rucker**. From tribal African music to a jazz standard from the year 4004, **Fuga** holds the listener captive amongst its many aural pleasures. Boldly going where turntablism has never gone before, **Fuga** is a true original. One listen will surely confirm that **Ricci Rucker** is miles ahead of the typical scratch DJ.
